The taxpayer should refer to relevant IRS forms and publications, and should not refer to the University for explanations relating to eligibility requirements for, and calculations of, any allowable tax credit.

This statement reflects total amounts billed by the University for qualified tuition and related expenses during the calendar year.

The taxpayer may claim an education tax credit only with respect to qualified tuition and related expenses actually paid during the calendar year.

The amount of any scholarships or grants reported for the calendar year and other similar amounts not reported may reduce the amount of any allowable education tax credit for the taxable year.

The amount of any reimbursements or refunds of payments received, or reductions in charges, for qualified tuition and related expenses, or any reductions to the amount of scholarships or grants, reported by the University with respect to the individual for a prior calendar year may affect the amount of any allowable education tax credit for the prior calendar year.
